24. As for your use of language, remember that two great masters, William Shakespeare and James Joyce, wrote sentences which seemed childlike when their subjects were serious. Sometimes we allow ourselves to get all worked up about things that aren’t really that big a deal. We focus on little problems and concerns. A stranger, for example, might cut in front of us in traffic. Rather than simply let it go, we convince ourselves that we are justified in our anger. Many of us might even tell someone else about the incident later on. We can’t get it out of our mind. There are many similar small stuff examples like this that occur every day in our lives. If we live like this, we will lose touch with the magic and beauty of life.

Some golfers like to play on ice near the Arctic. This allows them to enjoy beautiful views of the cliffs and peaks of ice mountains. Though golfers can enjoy beautiful scenery, they also face many difficulties. They have to wear goggles to protect their eyes from snow blindness. Of course, they cannot play golf with a white ball on an ice field because the ball would be too difficult to see. Many people use orange balls. The golfers also have to avoid being eaten by killer whales and polar bears, or falling into the freezing waters. Sometimes the ice field moves, so the course is different every day. Ice golf turns an otherwise leisurely sport into an extreme sport.
