Dear hotel guests,

Tides can cause Trouble!

Our beach is known for its powerful tides. If you are not careful, you can easily get into trouble. When the tide goes out, don't forget about the possibility of dangerous waves. You may search the beach for seashells, and other treasures but remember the dangerous waves!

A tide chart has been created to show what times are safe for swimming and what times are not. Take a moment before you go into the water, unless you want to risk getting caught in the tide and pulled out to sea.
